

## IL and Media... Never Ending Relationship!

Yes! It really is! We engage, train, facilitate and critique.

We engage, train and facilitate not only the media houses and media personnel but also the students of journalism. Providing them with forums to develop and strengthen their skills. Not only that, we also critically analyse the work of media.

So far IL has contributed to the training and development of more than 1500 journalists in Pakistan.

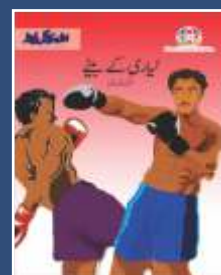

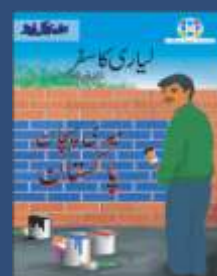

Our bi-annual magazine, FARD' seeks to dissect and critically analyze media coverage in Pakistan from a liberal perspective, focusing on its various aspects. While doing so, it aims to propagate the message of media and journalistic freedom, independence, responsibility, accountability and objectivity.

## Countering Extremism... building a community of Peace-Builders!

We believe in pursuing peace through peace!

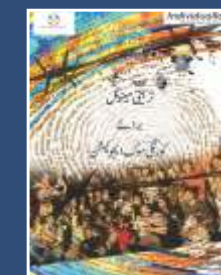

We counter extremism by spreading the message of peace and harmony. We are the peace-builders and through our work, we are building a community of peace-builders.

## Engaging the Youth... The future of the nation

Youth is our future! We acknowledge it!

We utilize their energetic and creative minds by providing them with opportunities to challenge the world and themselves! We create a space for them to believe in themselves, make them realise their responsibilities and refine their skills.

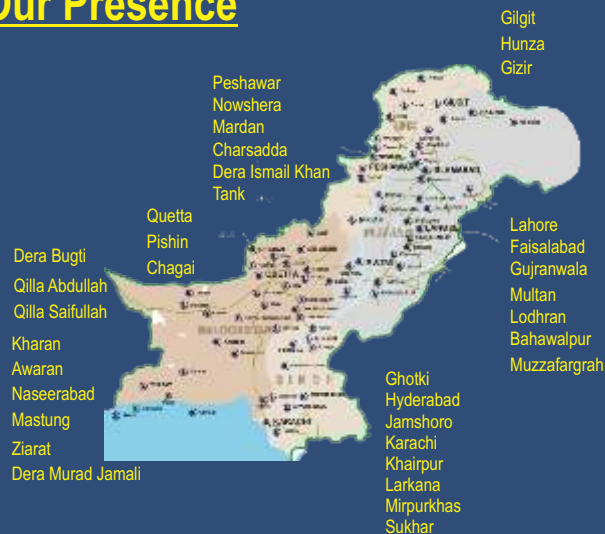

## IL and Governance... Becoming responsible citizens!

We make you the responsible citizen, you should be!  
We not only make you aware of your rights, we also make you aware of your duties. We make you a responsible citizen, so you do not fail where others did!

## Our Presence

Creating space for the individual

## Who We Are?

Individualland Pakistan is a research based consultancy and advocacy group working since 2007. We have a demonstrated expertise of working on peace building and counter violent extremism initiatives with various demographics such as youth, women, and children as part of our work supported by various partners. We have also engaged parliamentarians and clerics using publications, audio-visual tools as well as utilized social media to disseminate well researched peace messages.
