

SHAKAYBIAN!

Individualland
Creating space for the individual

You people are so dumb! It's a new computer. It takes a while to start

Seems Sultan has messed this up!

Why isn't this computer working?

Haha! Me and my never ending shakaybian.

Individualland
Creating spaces for the individual

Dear Friends! There are a number of differences in the animations used in the comic book. A beautiful gift hamper is waiting for the friend, who will spot the maximum number of differences. You can send us your entries at info@individualland.com or post them to our Facebook page Individualland. So hurry up and send us your entries.

I don't know why this policeman is following me?

Kami you have to proof read six stories by tomorrow...don't mess it up

Why don't you give me six more stories? Apparently I don't have a life!

We also need pictures for these stories. We can ask Sultan and Aamir Call them to the office tomorrow

29

Hey buddy, what's up?

I'm always cool and happy. What's up?

30

Sigh! At least they still remember us!

Tomorrow Kami has called us to his office.

31

Wow! You both are very punctual!

Please try to be punctual...We have been waiting for ages.

Seems like we should have been given the job

32

What are you talking? The world's best photographer is sitting in front of you!

We need photographers for our office; this is why we have called you both

10

33

Only tea? At least you should have served biscuits with tea

How much will I be paid for this work?

34

Noshaba have you briefed them on their task of taking pictures for magazine?

35

Yes but we also need a car for this

It's available, but don't insult it by calling it a car, it's a fabulous jeep

Ummm... my salary?

11

36

Do you know this organization has various other programs and publications

Wow! Amazing!

37

Take this office camera! The rest of the digital cameras are with the field team

38

We'll now see how brilliant your photography is

Camera doesn't matter. Aamer will show you his magic

12

My God! What sort of horrible pictures are these?

Haha...Amir has surprised us all!

I was unable to focus due to Kami's chattering

Amir's photographs should truly win a prize...Hahaha!

What is this? You want us to get fired?

What does it mean?
Release Seth Irfan?

Who is Seth Irfan and why
is he in prison?

Let's tell Tabinda,
she'll check online

What kind of snap is this? Who they want to set free?

63

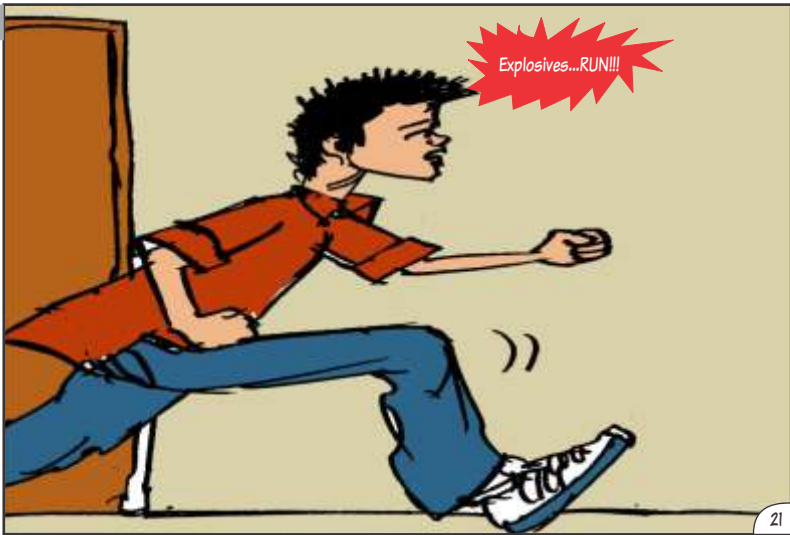

Oh No! These boxes are filled with explosives

64

65

21

Everybody run, there are explosives in the kitchen

We have found on the internet that this is a banned organization, which incites the youth towards sectarian and ethnic violence

Meaning they use the youth for their own agenda

Stop your lecture and run

Inspector! We want to tell you about an organization which is working for the release of Seth Irfan

Oh! Ok, this organization has started working under a new name I had my suspicions

He is the same person who was following me the other day

I have also seen explosives in their kitchen

What explosives? Ok come and show them to us

70

71

72

24

73

74

75

Why are these organizations banned?

Various reasons such as sectarianism, ethnic violence and apart from this, to spread hatred against the state and its people

How can we know which organizations have been banned?

How many banned organizations are there in Pakistan?

If Amir had liked informative pages on facebook we could have known

At this moment, there are many banned organizations operating in Pakistan

We had no idea about its illegal activities, therefore we were working there

They incite hatred among youth against other sects, ethnicities and countries

Due to these few banned organizations, people are now blaming organizations which work in the interest of the people and state

Various organizations are working in the interest of the country and helping youth as well

Magazines, summer camp, rallies and relief work are works of such groups to recruit youth

You are right! One should know about the organization before working in it

If they get banned, they change the name and continue their illegal activities

If these organizations are banned, how do they work?

After all what are these illegal activities?

Making explosives, sectarian and ethnic violence, sending youth to other countries for their own are their illegal activities

Other countries...Wow!

They send youth abroad for illegal activities

Kami if you go abroad with their connections do you know where will you go?

Where?

In the funeral section of Newspaper

Haha you mean to say he will go in plane and come in Coffin

Hahaha!
